Company Introduction

ProAge Neurology dementia patient treatment chronic management Med hardware company in early to mid stage round symptoms and phases from CT disease diagnosis TCM rehabilitation to aftermath professional nursing care.

Previously our PTSD treatment clinical hardware joined Seed Spot Mental Health Accelerator and customer rehab products in Sam's Club supply chain merchant in US.

Product Solution

ProAge innovativeness focused on AI customized MMSE test and Med head CT diagnosis in treatment hardware with acupuncture / message / moxibustion / cupping therapy and filiform needle function in wearable solution

Our product used newly robotics tech hardware in dementia diagnosis with TCM rehabilitation therapy in chronic management

R&D Content Roadmap

- I. Done mapping and prototype in Hangzhou and registering patented in mainland China
 - II. Joined Simens X Training Program in Shanghai 2024
 - III. Done patients test in Zhejiang Rehab hospital for around 1500+
 - IV. Use Med head wearable with light pitches in diagnosis and rehab with supportive of preservstion nursing care training in Palm2
 - V. Absorb HongKong TCM heritage and western diagnosis tech to facilitate the overall products in Western Med IP standard and further in ASEAN and develop preservation nutrition AI herbal solutions (High-Level Project Schedule)
- 

Business Develop Plan

Registered Med IP
with Standard TCM
patent

Explore ASEAN and
Saudi overseas
market

Achived standard
TCM dementia
hardware globally

Joined HK and
Great Bay Area
silver Med Plan in
product Sale

EU and US
subsidiary
distribution

Competitive Analysis

1. So far not found TCM robotics and hardware via AI in acpuncture in china but has some relative function competitor in Taiwan and Acubus in US
2. MMSE Test in Alibaba AliPay applet(达摩院阿尔兹海默症认知测试)
3. Mainland AI focused on Acupuncture robotics and TCM prescription
4. Mainland XR mental conigative hardware in clinical treatment (杭州虚之实科技)

CoreTeam Members

Med experts from Keio University / Zhejiang University / Zhejiang TCM University and affiliated hospital / Italy Rome University / W.E. Cornell / Stanford Med clinics

Tech professionals from Google / Deepmind in Med AI and Amazon hardware Dept and sales marketing from Medtronic Dept

Why HK and HKSTP

Now in product prototype stage and seeking IP registered with legal operation in HK for bussiness model MVP in TCM Heritage

Customer-end China Patent Drug and home usage hardware in standard invention with Canton nutrition combined diet with sports formula

From local to international operation standard and products in Great Bay Area (ShenZhen)
