论坛背景： BACKGROUND OF THE FORUM

香港再出发大联盟是由董建华先生、梁振英先生、谭耀宗先生为代表，动员全港1,600多位社会各界人士共同发起的联盟组织，旨在推动香港战胜艰难，重新出发，再创辉煌。

联盟发布的《香港区域知识产权贸易中心发展策略》建议采取分阶段、系统的策略，利用香港优势，包括完善的国际金融体系、健全的法律制度和世界一流的专业仲裁服务、卓越的科研和创新能力（特别是生物科技和医疗保健领域），从而建设和发展知识产权 (IP) 交易平台。针对癌症的医药专利及相关科技研发成果的知识产权交易将优先作为平台试点做推广。

在生物医药领域，自2015年以来，国内药企的授权交易数量和金额逐年增长，2023年有70宗创新药物许可交易，比2022年的44宗增长32%，2023年披露的交易总额超过465亿美元。国内制药公司创新药物的许可交易需求巨大且不断增长，抗癌药物是最为重要的组成部分。

The Hong Kong Coalition is a major alliance led by Mr. Tung Chee-hwa, Mr. Leung Chun-ying and Mr. Tam Yiu-chung, which mobilized more than 1,600 people from the local community in Hong Kong, aiming at enabling Hong Kong to overcome major challenges, start afresh and attain new milestones.

According to the "Development Strategy for Hong Kong as the Regional IP Trading Centre" issued by the Coalition, it is proposed that Hong Kong should adopt a phased and systematic approach to build and develop an IP trading platform by leveraging on its strengths, including a well-established international financial system, a robust legal system and world-class professional arbitration services, as well as excellent research and innovation capabilities (particularly in the biotech and healthcare sectors). It is also suggested that IP transactions of cancer-specific pharmaceutical patents and related scientific and technological R&D results can be prioritized for promotion initially.

In the biopharma sector, the number and value of licensing deals by domestic pharmaceutical companies have increased year by year since 2015, with 70 innovative drug licensing deals in 2023, a 32% increase from 44 in 2022, and transactions which worth a total of more than US\$46.5 billion were concluded in 2023. There is a huge and growing demand for licensing and trading of innovative drugs by domestic pharmaceutical companies, and anti-cancer drugs are regarded as the most important component.
